HACKUMENTARY

AN INTERESTING EXPERIENCE!

**With ups and downs at any
corner the journey matters
just as much as how one
handles the situation.**

The background of the image is a deep black space filled with numerous small, white stars. On the left side, a portion of the Earth is visible, showing green landmasses and blue oceans. On the right side, a large, detailed image of the Moon is shown, displaying its characteristic grey surface and numerous craters. The text is centered in the middle of the image, overlaid on the starry background.

**Hackumentary
is dedicated
to documenting
our remarkable
experience during
the NASA SpaceApps
Challenge.**

A composite image showing a large space station with multiple blue solar panel arrays in the upper right, and a large, detailed view of the Moon in the lower left, set against a starry black background.

How did we do this?

Thank you!
